PROFILE

I'm a Brazilian currently living in Italy since 2019, with two bachelors in Digital Design and Information Systems. Acquired three years of experience as a Full Stack Web Developer on my last internships and job with Ruby on Rails in Brazil, and one more year as a backend developer with NodeJS in Italy. I'm currently specializing myself with courses, working on a NodeJS REST API and a ReactJS frontend administrative dashboard application. Have a full understanding of the MERN stack, with MongoDB, Express, React and NodeJS, and also knowlegde with other technologies as Docker, Kubernetes and Git.
